

Hidden Curriculum Supplement

Awards

The [awards page](#) provides detailed information about award submission requirements and deadlines.

Endorsements:

Once you decide to submit your paper for consideration, please contact faculty members to request endorsements. Allow sufficient time for them to review your paper and write an endorsement. The Department requests that faculty write 250-500 word endorsements. The endorsements should identify the merits and potential of your paper.

Review Process:

The review committee is composed of 3-5 faculty members who read all submissions and collectively select the awardees for the various awards. The committee carefully considers each submission and relies on faculty endorsements for additional context.

Examples of award-winning papers:

To provide additional information, we have created a folder of award submissions that previous recipients have agreed to share with us. You can access that information [here](#).
