- Professor Morrison was absolutely wonderful. Her lectures were captivating and very relevant to the current state of the economy. The course material, that she portrayed very clearly, was always available via the presentations on Courseworks, in addition to the course recordings. Going to lectures was enjoyable and genuinely interesting, she managed to generate enthusiasm for the material brilliantly. Finally, Professor was always available for any questions or comments via email.

- Wendy always provides some time for us to ask questions about the problem sets and the lectures, and it was very helpful.
- The course materials (readings, videos, handouts) helped me achieve the course's learning goals
- Wendy is incredibly knowledgeable on the material and was more than available to us when we needed support. She presented the subjects clearly and her slides were detailed. She answered all our questions. She is always prepared and ready to teach with great enthusiasm. She clearly is passionate about economics.
- Everything was great . It is perfect.
- teaching is very clear
- Organized, easy to understand.
- Wendy is very organized and really explains everything thoroughly.
- Professor Morrison is not only very knowledgeable but also awesome communicator. The material was presented in concise and logical manner with clear explanations. Professor Morrison's pedagogic skills shone as she explained the inner workings of every model. She would go to the extra length so all students would get it. I have learned great deal of monetary policies, get intuitive knowledge how exchange rates work and what is going on behind the scenes. it is this intuitive knowledge that prof. Morrison was so good at pointing out. The TA's were also amazing. They complimented each other and were devoted and invested in students. Really well run and organized. So far it was my best course at Columbia. The mixture of in person and online session worked really well and recorded sessions were a blessing as one could go over and over if somethin was missed. Simply awesome.
- Very clear lectures ! Very understanding of student struggles as well
