

The Huntington Library awards over 150 research fellowships annually. The application deadline for fellowships in the 2018-2019 academic year is Nov. 15th, 2017. Recipients of all fellowships are expected to be in continuous residence at The Huntington and to participate in and make a contribution to its intellectual life.

The Huntington is an independent research library with significant holdings in British and American history; British and American literature; art history; the history of science and medicine; and the history of the book. The Library collections range chronologically from the eleventh century to the present.

Long-Term Awards are for nine to twelve months with a stipend of \$50,000. Three long-term fellowships are funded by the **National Endowment for the Humanities** (\$4,200 per month from the NEH; the balance of the stipend from Huntington funds).

Huntington Research Awards are for one to five months and carry monthly stipends of \$3,000.

The Dibner Program in the History of Science offers historians of science and technology the opportunity to study in the Burndy Library, a remarkable collection in the history of science and technology. Both long and short-term fellowships are available.

Travel Grants and Exchange Fellowships for Study in the United Kingdom and Ireland are for study in any of the fields in which The Huntington's own collections are strong and where the research will be carried out in libraries or archives in the United Kingdom and Ireland. We also offer exchange fellowships with Corpus Christi, Linacre, Lincoln, and New Colleges, Oxford, Trinity Hall, Cambridge, and Trinity College Dublin.
