EDUCATION

Columbia University; Graduate School of Arts and Sciences August 2018- Present
Master of Arts in Economics

University of Cincinnati; Carl H. Lindner College of Business August 2013- April 2018
Bachelor of Business Administration

- Majors: Economics (3.78) and Finance (3.93); Minor: Mathematics (3.95); Certificate: French Language
- Latin Honors: Magnum Cum Laude
- Coursework: Statistics, Econometrics, STEM Calculus 1&2, Multi Variable Calculus, Linear Algebra

RESEARCH AND ACADEMIC PROJECTS

American Economic Association Summer Program, Michigan State University June 2018- August 2018

- Trained in the advanced microeconomics, econometrics, mathematics, and research methods, GPA: 3.8
- Presented a co-authored paper titled, "*The Impact of Environmental Shocks on Body Mass Index: Lessons from Hurricane Katrina*" at the 2018 American Economic Association Pipeline Conference
- Conducted the research under the advisement of Dr. Soren Anderson and worked with professors such as Dr. Jeffrey Wooldridge, Dr. Lisa Cook, Dr. Antonio Doblas-Madrid, and Dr. Thomas D. Jeitschko
- Networked with economists from the World Bank, JPAL, and the Federal Reserve through speaker series events

Charles Phelps Taft Undergraduate Research Award in Economics— Researcher April 2016- April 2017

- Awarded the Charles Phelps Taft Research Grant in Economics by the University of Cincinnati in collaboration with research adviser, Dr. Debashis Pal
- Analyzed the impacts a merger in the food industry would have on both consumers in developed countries, producers in developing countries, and aggregate global welfare
- Concluded and delineated findings in a report titled, *Impact of Mergers in the Food Industry on Consumers and Producers*

Dr. Thomas Moore, Associate Professor of Political Science— Research Assistant March 2017- June 2018

- Investigated the extent to which China could parlay its economic performance into greater economic influence; examined trends in Chinese ownership of foreign firms; analyzed the extent to which ownership of Chinese firms is held by the Chinese or other global investors; and quantified trade relationships between China and its trade partners as both an exporter and importer
- Extracted, cleaned, and analyzed data sets from the World Bank, the World Trade Organization, the Direction of Trade Statistics, Forbes Global 2000 List, and Bloomberg Terminals

Economics Center—Undergraduate Research Assistant January 2017- May 2018

- Pulled, cleaned, and analyzed data from sources, such as the American FactFinder, for a variety of projects
- Contributed narrative writing and literature reviews for addition to several projects
- Contribution: *Outlining the Disincentives and Opportunity Costs for Working Mothers*
 - Collaborated with senior and junior level researchers in data collection, analysis, and presentation for The Women's Fund concerning research on the "cliff effect" of benefits in Ohio
 - Analyzed the effect of federally set poverty target through quantitative research and reporting on the opportunity costs and disincentives incurred by low income working mothers in Hamilton County
- Contribution: *Economic Analysis of Hamilton County's Emancipated Foster Youth*
 - Explored and analyzed the economic benefits of increasing the maximum age of children in the Hamilton County foster care system using regional data
- Other Contribution(s):
 - *The Economic Impact of The Children's Home of Cincinnati on the Greater Cincinnati Area*

<https://www.linkedin.com/in/svetlana-galvez>

- *Southwestern Ohio Council for Higher Education: Economics and Fiscal Impacts of SOCHE Member Colleges and Universities*

SELECTED PROFESSIONAL EXPERIENCES

JP Morgan Chase Co—Global Finance and Business Management Intern June 2017- August 2017

- Conducted a review of 15K loan classifications to ensure accuracy for regulatory reporting purposes
- Reviewed over 5K loans, resulting in the reclassification of 123 loans with balances totaling \$28.5MM
- Discovered an overlooked specification in the call report instructions, leading to an increase in accuracy of previous loan classifications, and prevention of future incorrect classifications
- Initiated collaboration across lines of business to further enhance understanding of the intricate systems that support loan documentation and to identify potential opportunities to automate the loan review process
- Presented findings and offered both short and long-term suggestions to Business Banking Controller Group senior management to improve accuracy and efficiency in the loan review process

LEADERSHIP AND AFFILIATIONS

University of Cincinnati's Economics Society March 2016- May 2018

- Elected President during the 2017-2018 academic year and Vice President during the 2016-2017 academic year
- Secured funding from the department for 10 students to attend the National Association for Business Economists Conference in Washington D.C. in the spring of 2017 and Cleveland, Ohio in the fall of 2017
- Organized funding from the department to take 10 students to see *Freakanomics* author Steven Dubner which exposed students to economics outside of the classroom
- Increased membership by 20% through meetings, frequent communication, and out-of-classroom experiences
- Collaborated with the economics department to increase women participation in economics through scholarships, lecture events, and mentorship opportunities
- Presented current events, goals, and future opportunities to the Board of Trustees on behalf of the Economics Society
