

THEORY MEETS PRACTICE.  
DO RESEARCH AT THE VERY  
CENTER OF BUSINESS.

Are you interested in leveraging your analytical skills to work on cutting-edge research questions?

Do you want to pursue research in a field with excellent academic and industry career opportunities?

Are you ready to combine math, economics, computing, statistics, and information sciences to find innovative solutions to challenging problems with massive data sets?

Are you ready to apply your knowledge in the behavioral sciences to tackle management and marketing research problems?

Do you want to work with the leaders who are defining the very center of business?
