Placement Chairs: Sandra Black, Mark Dean

Placement Administrator: Amy Devine

 Department of Economics
 Columbia University
 New York, NY 10027

EDUCATION

Columbia University in the City of New York <i>Ph.D. Economics</i>	2019-2025 <i>(expected)</i>
Indian Statistical Institute, New Delhi <i>Masters in Quantitative Economics</i>	2015-2017 <i>Rank 2</i>
Presidency University, Kolkata <i>B.Sc. in Economics</i>	2012-2015 <i>Rank 1</i>

RESEARCH FIELDS

Macro-Finance, Monetary Economics

WORKING PAPERS

The Perceived Sources of Unexpected Inflation (*Job Market Paper*)
 with Emilio Zaratiegui

We use high-frequency asset price changes around Consumer Price Index announcements in the US to learn about market perceptions regarding the economy. First, we document some facts. An unexpected increase in the CPI inflation leads to an increase in (a) treasury nominal yields (b) forward breakeven inflation rates. The response of price of S&P 500 and the future annual dividends of S&P 500 companies varies over the years in response to the surprise. We interpret these facts through the lens of a New Keynesian Model with an inflation announcement to decompose unexpected inflation into demand and supply components. We find that the share of supply in unexpected inflation has increased by 20 percentage points post-covid.

Anatomy of Banks' IT Investments: Drivers and Implications
 with Nicola Pierri, Yannick Timmer, and María Soledad Martínez Pería

Using a newly compiled measure, this paper studies the determinants and implications of US banks' Information Technology (IT) investments. Exposure to fintech competition and novel economies of scale are important drivers of the six-fold increase in IT investments observed over two decades. Further analyses point towards significant implications of banks' IT investments for both (i) monetary policy transmission to lending and (ii) financial inclusion of low income borrowers.

Loan Covenants and the Firm Investment Channel of Monetary Policy

We study the role of loan-level financial covenants in determining the investment channel of monetary policy. We find that out of all covenant-types, the minimum interest coverage covenant, which sets a minimum ratio of earnings to interest payments, interacts robustly with monetary shocks. When there is a positive monetary shock, the farther away a firm is from violating its interest coverage threshold, the more responsive it is to a monetary shock in terms of investment. This finding is robust to controlling for factors known to affect the transmission of monetary policy to firm investment.

RESEARCH EXPERIENCE AND OTHER EMPLOYMENT

Federal Reserve Bank of St. Louis <i>Dissertation Fellow, Research Division</i>	2024
Federal Reserve Bank of Richmond <i>PhD Summer Economics Fellowship program, Research Division</i>	2024
International Monetary Fund <i>Fund Internship Programme, Macroeconomics Research Division</i>	2022
Research Assistant for Professor Olivier Darmouni <i>Columbia Business School</i>	2021
Research Assistant for Professor Laura Veldkamp <i>Columbia Business School</i>	2020
University of Pennsylvania - Center for Advanced Study of India <i>Associate Director (Research) - Indian Agricultural Markets</i>	2018-2019
WalmartLabs, Bengaluru <i>Statistical Analyst</i>	2017-2018
Research Intern - London School of Economics <i>ESRC-DFID funded project on Microfinance</i>	2017

HONORS, SCHOLARSHIPS AND FELLOWSHIPS

Dissertation Fellowship, Columbia University	2024-2025
Department Research Assistant Award, PER, Columbia University	2023
Data Purchase Grant Award, PER, Columbia University	2023
Vickrey Award, Best Third Year Paper (runner-up), Columbia University	2021
Harriss Award, Best Second Year Paper (runner-up), Columbia University	2020
Dean's Fellowship, Columbia University	2019-2024
Fellowship, Indian Statistical Institute	2015-2017
Book Grant, Indian Statistical Institute	2016

TEACHING EXPERIENCE

Finance and the Real Economy	2021,2023,2024
Principles of Economics <i>Wueller Teaching Award for best teaching assistant (Runner-up)</i>	2020,2021,2023
International Economics	2022

TECHNICAL SKILLS

Language/Software: R, Stata, Python, Matlab, Github, L^AT_EX

PERSONAL INFORMATION

Languages: English, Hindi, Gujarati
Nationality: India
