

UNDERGRADUATE FELLOWSHIPS

The Roosevelt Network's three undergraduate fellowships develop and support undergraduate college students—in particular, those who hold identities that have historically been denied political power—to be the next generation of leaders in the progressive policy ecosystem.

We especially encourage applications from students who:

- Attend an institution in the South, Midwest, and the non-coastal West
- Attend a Minority Serving Institution (MSI) which includes HSI's, HBCU's, HWC's and AANAPISI's
